FLOOR COLLECTION

A TRUE EXPRESSION OF YOURSELF

## OUR COMMITMENT TO THE ENVIRONMENT

Wood is the raw material on which the activities of the DLH Group are based. Our natural affinity with wood only serves to strengthen our commitment to preserving the natural forest habitat. It is our interest in ensuring that the world's forests are well managed in order to produce wood for future generations. From purchasing raw materials to product development, our aim is to have least possible impact on the environment.

DLH has also been involved in developing methods for forest management in the tropics.

*Visit our website for more detailed information on our environmental policy [www.dlh-group.com](http://www.dlh-group.com).*

The FSC logo identifies timber from well managed forests.

**DISCLAIMER:** Wood is a natural product, every piece has a unique colour and appearance, and every floor will have its own distinctive visual character. Please bear in mind that showroom samples and photographic reproductions can give an example of a particular type of wood floor's appearance but they may not be representative of the full range of colour, texture and grain variations which can occur in the product itself.
